FAX (617) 349-4269

PAULA M. CRANE
INTERIM CITY CLERK

June 24, 2026

Dear Neighborhood Representative:

This office is in receipt of a copy of an application from:

Jessica Quirk for a Curb Cut at the location of 202 Garden Street with a Frontage of 123.31', Setback 10', Distance from surrounding structures 10', Length 10', Width 10' and a total Square Footage of 100.

The City Council has directed that all curb cut petitions be submitted to the appropriate Neighborhood Associations for the locality where the curb cut would be made, so that the association may have an opportunity for review, prior to action by the City Council.

Please indicate by return mail your approval or disapproval of the petition within twenty-one days from the date of this letter. If the response is "disapproval" please state reasons. Be sure to sign the form and include a daytime phone number. I have enclosed a self-addressed stamped envelope to facilitate your reply.

As soon as this office has received both the completed application and your neighborhood association response, I will place the petition on the agenda for the next City Council meeting. If I do not receive a response from your neighborhood organization by twenty-one days from the date of this letter, I will place the petition on the agenda for the next City Council meeting.

If your neighborhood association cannot complete its review by twenty-one days from today, you may extend the reply time another seven days by requesting an extension by letter to me with a copy to the petitioner. However, I urge you to make every effort to complete your review as soon as possible.

Thank you for your cooperation.

Sincerely yours,

Paula M. Crane
Interim City Clerk

Green Roof Maintenance

1.1 Maintenance responsibilities: Difference installation, the installation company

Sodium salts require care and attention in the weeks following their installation. After a period of 4 to 6 weeks, the sodium salts will have been absorbed by the growing media. All dry roof must be carefully monitored through their first summer flowering cycle.

1.2 Maintenance and installation: Difference installation, the installation company

Inspect the roof at least twice weekly, in spring and autumn, and inspect all roofs after any severe storm. Make frequent inspection on buildings that house manufacturing facilities that evacuate exhaust fumes onto the roof.

The following steps should be undertaken during each roof inspection:

- Check and remove all debris from the roof as debris on the roof surface will be quickly swept into drains by rain.
- Notify the roofing contractor immediately if a roof leak occurs.

1.3 Salt Accum

Appropriate measures should be taken to ensure salt accumulation to ensure safe access and passage over the planted roof areas for maintenance personnel.

1.4 Gullies and Drains

The checking of gullies and drains should be carried out routinely during any maintenance check to ensure drainage is not impeded.

1.5 Maintenance and Insurance

If an extended period of dry weather should occur (14 or more dry days), periodic checks should be made on the roof to ensure the storage and drainage board is determined if all the water contained has been absorbed by the growing media. Periodic checks should be made to ensure the drainage pipe and the substrate is thoroughly saturated and the external cups are full.

- Thickness: 45 mil
- Weight: 1.5 lbs per sq ft
- Load Capacity: 2,000 lbs per sq ft
- Installation: See technical drawing for details
- Warranty: 10 years

Standard Sempergreen Sedum-Mix Blanket

Benefits:

- Protects roof structure from moisture damage
- Prevents root growth through the membrane
- Reduces water evaporation from the soil
- Improves soil aeration
- Enhances plant growth
- Reduces maintenance costs

Standard Sempergreen Sedum-Mix Blanket

Installation:

- Lay the blanket over the roof surface, ensuring it is flat and free of debris
- Secure the blanket with staples or weights
- Trim the blanket to fit the roof area
- Seal the edges of the blanket with a compatible sealant
- Monitor the blanket for any damage or wear

Standard Sempergreen Sedum-Mix Blanket

Notes:

- The blanket should be installed over a clean, dry roof surface
- Avoid walking on the blanket during installation
- Store the blanket in a cool, dry place
- Use the blanket within its shelf life

Standard Sempergreen Sedum-Mix Blanket

Conclusion:

The Standard Sempergreen Sedum-Mix Blanket is a high-quality, durable, and easy-to-install solution for protecting your roof from moisture damage and root growth. It is a cost-effective way to extend the life of your roof and improve the health of your green roof system.

CITY OF CAMBRIDGE

(617) 349-4260

FAX (617) 349-4269

PAULA M. CRANE
INTERIM CITY CLERK

June 24, 2026

Dear Neighborhood Representative:

This office is in receipt of a copy of an application from:

Jessica Quirk for a Curb Cut at the location of 202 Garden Street with a Frontage of 123.31', Setback 10', Distance from surrounding structures 10', Length 10', Width 10' and a total Square Footage of 100.

The City Council has directed that all curb cut petitions be submitted to the appropriate Neighborhood Associations for the locality where the curb cut would be made, so that the association may have an opportunity for review, prior to action by the City Council.

Please indicate by return mail your approval or disapproval of the petition within twenty-one days from the date of this letter. If the response is "disapproval" please state reasons. Be sure to sign the form and include a daytime phone number. I have enclosed a self-addressed stamped envelope to facilitate your reply.

As soon as this office has received both the completed application and your neighborhood association response, I will place the petition on the agenda for the next City Council meeting. If I do not receive a response from your neighborhood organization by twenty-one days from the date of this letter, I will place the petition on the agenda for the next City Council meeting.

If your neighborhood association cannot complete its review by twenty-one days from today, you may extend the reply time another seven days by requesting an extension by letter to me with a copy to the petitioner. However, I urge you to make every effort to complete your review as soon as possible.

Thank you for your cooperation.

Sincerely yours,

Paula M. Crane
Interim City Clerk

Is this project subject to Green Building Requirements (Section 22.20)?	☐ Yes ☒ No
Does this project involve the construction of a new building?	☒ Yes ☐ No
Does this project enlarge an existing building's footprint by at least 50%?	☐ Yes ☒ No
Does this project involve the creation of new surface parking area?	☒ Yes ☐ No

Answer the questions below if the answer is "Yes" to any of the above

Requirements

Cool Roof Requirement

Does this project involve the construction of a new building roof or replacement of more than 50% of an existing roof?	☒ Yes ☐ No
Has this project received a Certificate of Appropriateness from the Cambridge Historical Commission or a Neighborhood Conservation District Commission, or a determination of adverse effect by the Executive Director of the Cambridge Historical Commission? [if "Yes," attach the document to your submission]	☐ Yes ☐ No ☒ N/A

Last Updated: March 2024

How much of the new or replaced roof area (in sq. ft.) has a slope (rise:run) of less than 2:12? [Cool Roof Requirement is not applicable to roof area with a 2:12 or steeper slope]	1,836sf
What is the initial Solar Reflectance Index (SRI) of the proposed roof surface material for the area described above, excluding any solar energy systems or green roof area? [Minimum is 82]	108

Cool Score – Base information on the attached Cool Score Sheet and Site/Roof Plan

What is the Cool Score of the proposed site design? [Minimum is 1.0 except per below]	2.46
What is the Cool Score of the existing site? [Only answer if the project does not involve a new building or enlargement of a building footprint. The proposed Cool Score must not be less than the Cool Score of the existing site]	4.88

Modifications to Requirements

Has the project received, or will the project seek, a special permit from the Planning Board to modify the Green Factor Standard for this proposal?	☐ Received SP (date: _____) ☐ Seeking SP ☒ No modification
